Diagram 1 — System Overview Structure

One person (Aadhar) ? One Student ID ? Many course enrollments ? Many batch assignments.

LOGIN: Same Student ID + Password ? Dashboard shows ALL courses & batches

Diagram 2 — Database Structure (ER Diagram)

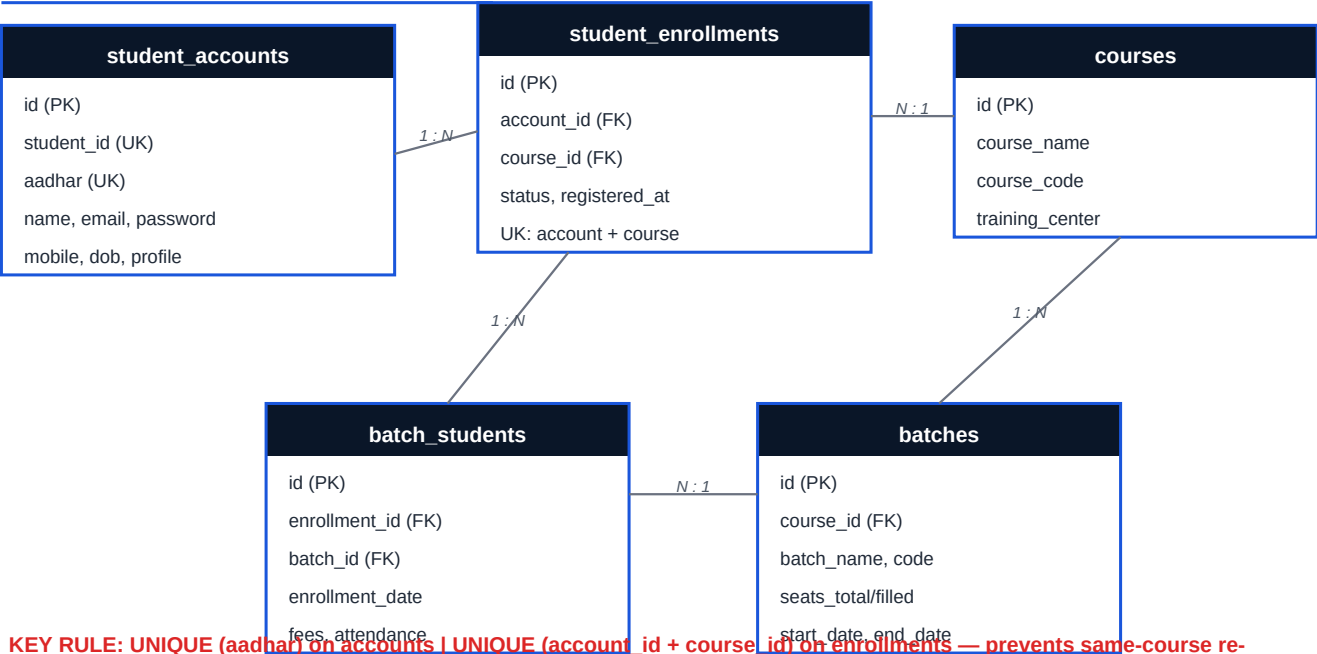

Diagram 3 — Registration Workflow

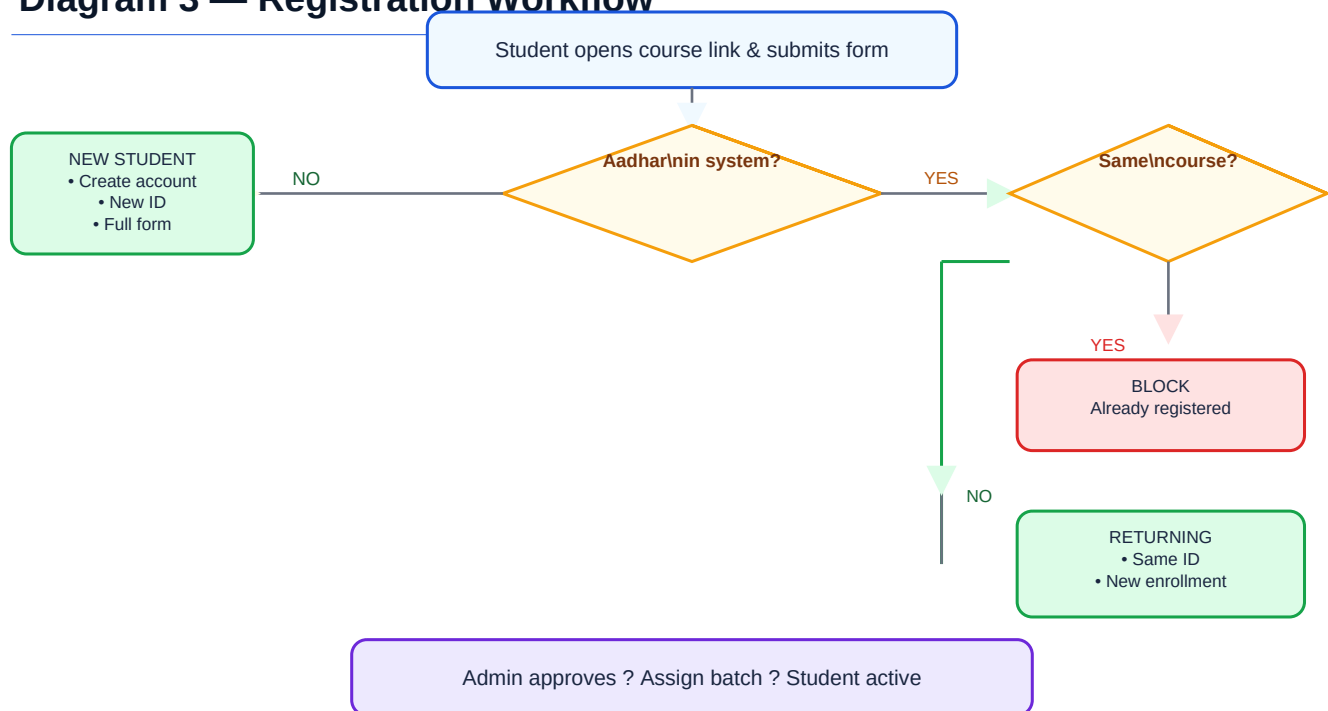

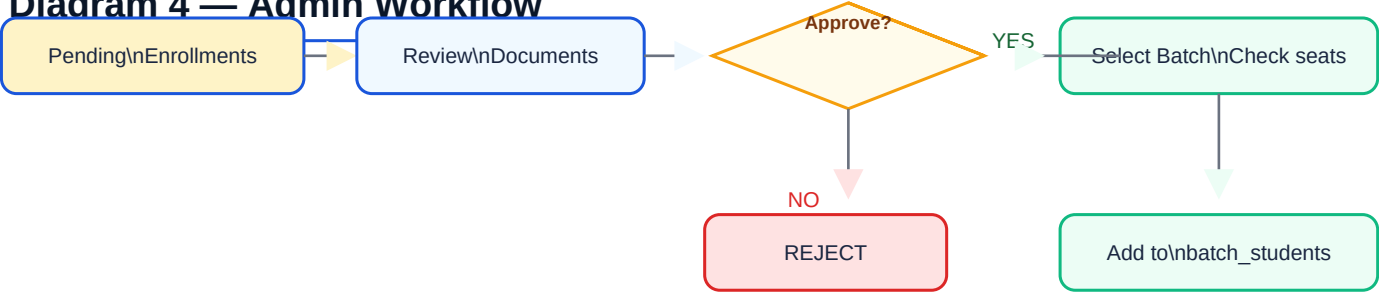

Diagram 4 — Admin Workflow

Admin: Assign to Additional Course / Batch

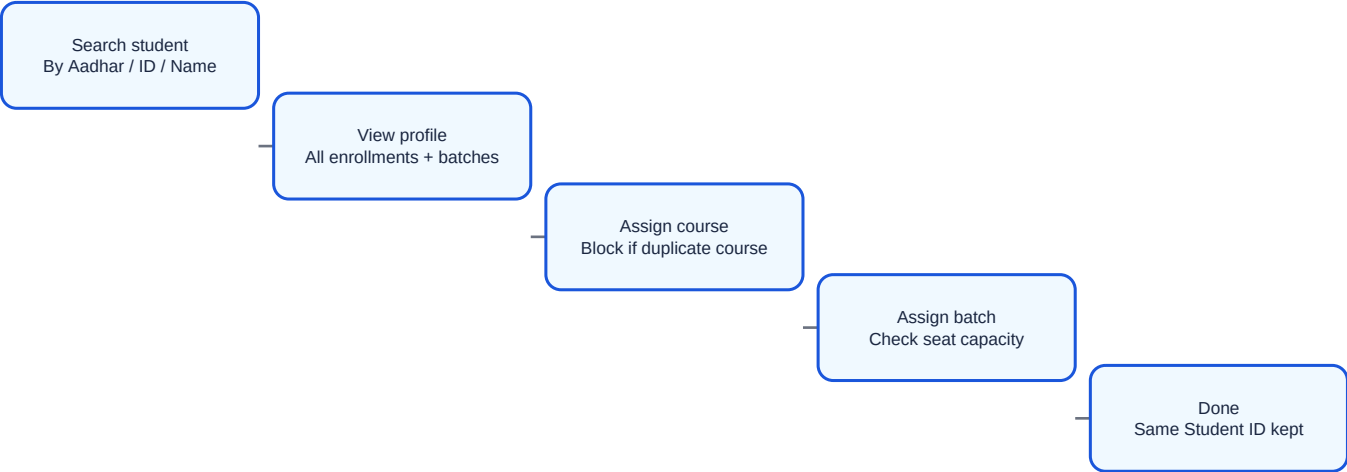

Diagram 5 — Student Portal & Batch Flow

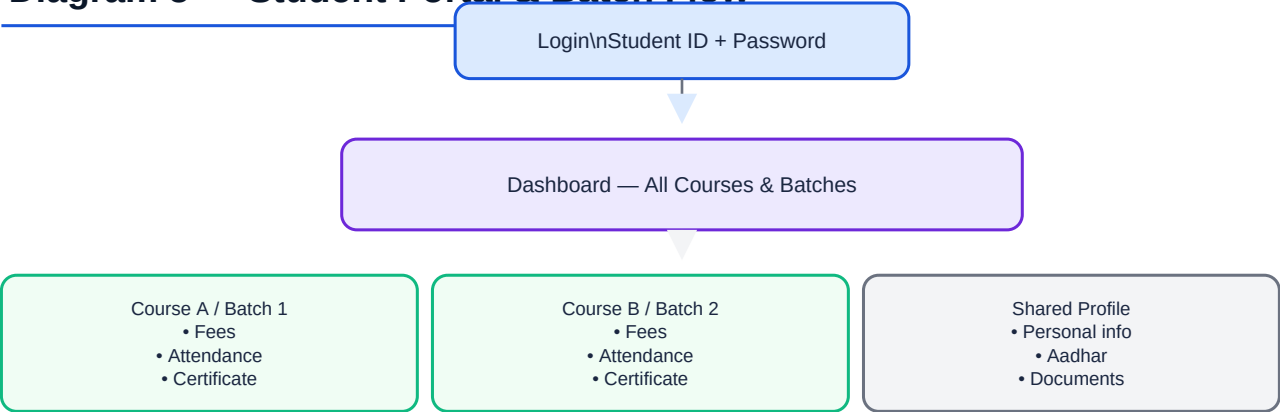

Diagram 6 — Implementation Phases

Reference Tables

Aadhar + Course Validation Matrix

Aadhar	Course	Action
New	Any	Full registration ? new account + new ID
Exists	New course	New enrollment only ? same ID
Exists	Same course	BLOCK — cannot re-register

Student ID Numbering

Event	Student ID
1st new person in 2026	NIELIT/2026/BBSR/0001
Same person, 2nd course	Same ID (no new number)
After 9999 in same year	10000+ or wait for 2027/0001

Example Lifecycle

Step	Action	ID
1	Register Course A (new Aadhar)	NIELIT/2026/BBSR/0042
2	Admin ? Batch 1	Same
3	Register Course B	Same
4	Try Course A again	BLOCKED

Role Permissions

Role	Can Do
Student	Register, login, view own courses
Course Coordinator	Approve, assign batch (assigned courses)
Master Admin	All courses, assign course/batch, config

Summary: One Aadhar ? One Student ID ? One login ? Many enrollments (one per course) ? Many batches. Same course re-registration is never allowed.
